Our Brothers and Sisters In Christ,

Greetings! Diana and I hope this finds you well and richly blessed in the Lord. We have now received the first year grade reports from the children who are currently being sponsored through the generosity of many. Diana and I would like to remind each of you that there is still an overwhelming need to raise funds for hundreds of children in the Turkana district of Kenya who desperately need a chance at life. Education is the key to freedom for these kids. Without education, there is little hope for anything more than poverty. If you would like more information on how to become a sponsor, please contact Diana and I and will be happy to get you connected. Below you will find a table for each student and the grades they received. Each of them did very well and we are so very proud of them.

While many of the grades may seem poor by our standards, we must remember that these kids are coming out of very difficult circumstances and adjusting to being away from home and family. We are hopeful to see everyone do better in the coming terms. As for Irene and her exceptional performance....**YOU ROCK SISTER!!!!!!**

Just a note: Kiswahili is the formal language of Kenya. CRE is the Christian education component.

Irene A. Lomoro, Turkana Girls Secondary School, Lodwar Kenya

English	B	Computer	B
Kiswahili	A-	Home Science	A-
